

COMMISSIONS & REWARDS

ONE-TIME COMMISSIONS

For each customer or partner you personally recruit, you will receive a one-time direct commission for each card purchased. The commission amount is based on the respective card version (BASIC, PREMIUM, BUSINESS, or GOLD). If the customer or partner later upgrades to a higher-tier version, you will receive an additional commission equal to 50% of the commission applicable to the version they upgraded to. The payout will be made in USDT once payment has been completed (within 7 business days at the latest) and will then be available to fund your own card.

REWARDS

Depending on the rank you have personally achieved, you will receive ongoing, recurring rewards on all deposits (funds added to the respective card balance) made by all Bellver card users within your own 2x2 matrix (left and right), up to a specific level based on your individual qualification. Rewards are paid in USDT once the respective deposit has been completed and will then be available to fund your own card balance. Rewards are calculated retroactively on a monthly basis. Deposits made within the final 7 business days prior to the settlement date will not be included until the following month's settlement. The reward amount is 0.1% per level on 100% of each completed deposit that was funded as a card balance. There are a total of 6 different qualification levels (ranks). In all cases, eligibility requires a minimum monthly deposit of \$100 to your own card. If this minimum requirement is not met in any given month, your entitlement to receive rewards for that specific month will be forfeited in full, without compensation. If this minimum requirement is not met for three consecutive months, you will entirely and irrevocably lose your current position in the 2x2 matrix. Any further reward entitlements accrued up to that point will be permanently forfeited and will roll up to the next qualified position. Requalification for the previous position after the three-month period is not permitted.
